

# AMEX transactions and settlements

## Amex transactions

We display any Amex transactions you take on your Verofy® Move within your transaction reporting in Verofy® App and Cloud.

The dashboard figures at the top of the page DO NOT include Amex transactions. This is because Verofy are not processing or settling these transactions.

## Amex settlements

We don't include information about your Amex transactions within the Settlements section of Verofy® App or Cloud.

If you need to check whether your Amex transactions have been settled, we recommend logging into your [Amex customer portal](#) to view this information. If you are not sure of the login details, please contact Amex directly for support with this.
