

# Finding a specific transaction

To locate a specific transaction, head to the **Transactions** option in the Verofy® App.

Select the **filter** button in the top right of the page to open the advanced options for filtering a transaction.

You can find transactions by searching by the transaction reference, by a specified or range amount, or by the transaction type, status, channel and card type. You can also filter by a specific date, or between date ranges. In the example below, the user is looking for approved sale transactions between £50 and £100 taken on their Verofy® Move that were debit cards, between the 1st October and 21st October.
