View your company details and contacts

If you need to view your company details and contacts, you can do so in the Verofy® App.

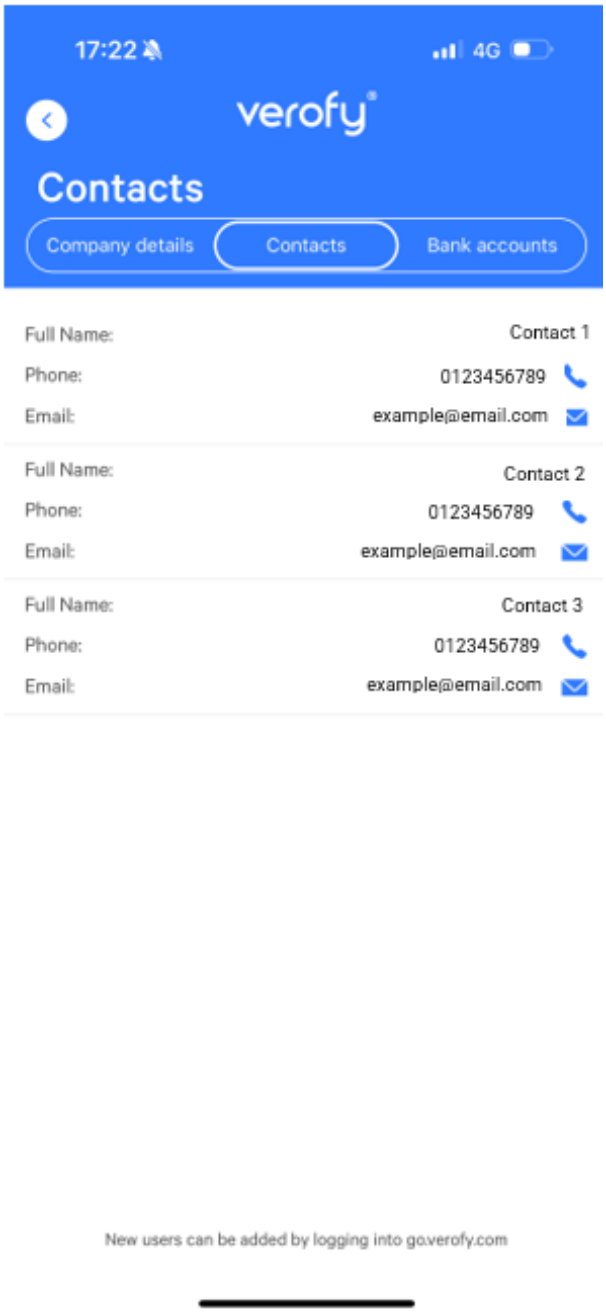

1. Start by logging into the Verofy® App, then pressing the **...** button at the top right of the screen.

2. From here, select the **Details** option. You'll see the basic company details here, including your legal name, trading name, account creation date, MCC and business start date. If any of the information looks incorrect or is updated, **get in touch** to let us know.

From here, you can also view the business contacts by clicking into the contacts tab. If you need to add a new user, you can do this in Verofy® Cloud. If you need help adding users in Cloud, click **here**.

For more information on the bank accounts tab, click **here**.
