

Update your bank details

To update your bank details in Verofy® Cloud, [log in](#) and head to the first initial of your name in a circle at the top right of the screen - this is the user profile section.

From here, select the **Account** option. You'll see all your business information here, and you can scroll to locate the Bank details section or select Trading information on the list on the left hand side of your screen.

Once you locate the Bank details section, select the **Add a new bank account** button at the top right of the section to update your bank details.

Bank details		Switch account Add new bank account
Account name	Bank account	
Bank name	CLEARBANK LIMITED	
Sort code	XX-XX-XX	
Account number	XXXXXXXX	
IBAN		
BIC		
Bank Address		

You'll need to enter the sort code and account number of the new bank account. Press **Authenticate** to validate the new details being entered.

Enter your new bank details

Sort code

Account number

Before we verify your bank account we just need to send you a text to approve the request

Authenticate

Once entered, you'll receive a text with a verification code. Enter this on the screen in Verofy® Cloud.

Enter verification code

Please enter the six-digit verification code you received via SMS

[Didn't receive a code?](#)

[Cancel](#)

The system will then validate the bank details entered, this can take up to 30 seconds. If verification is successful, you'll see the confirmation on screen. You'll be asked to add a label for this new bank account. Once you've entered the label, press **Next**.

Success.

Please enter the six-digit verification code you received via SMS

[Didn't receive a code?](#)

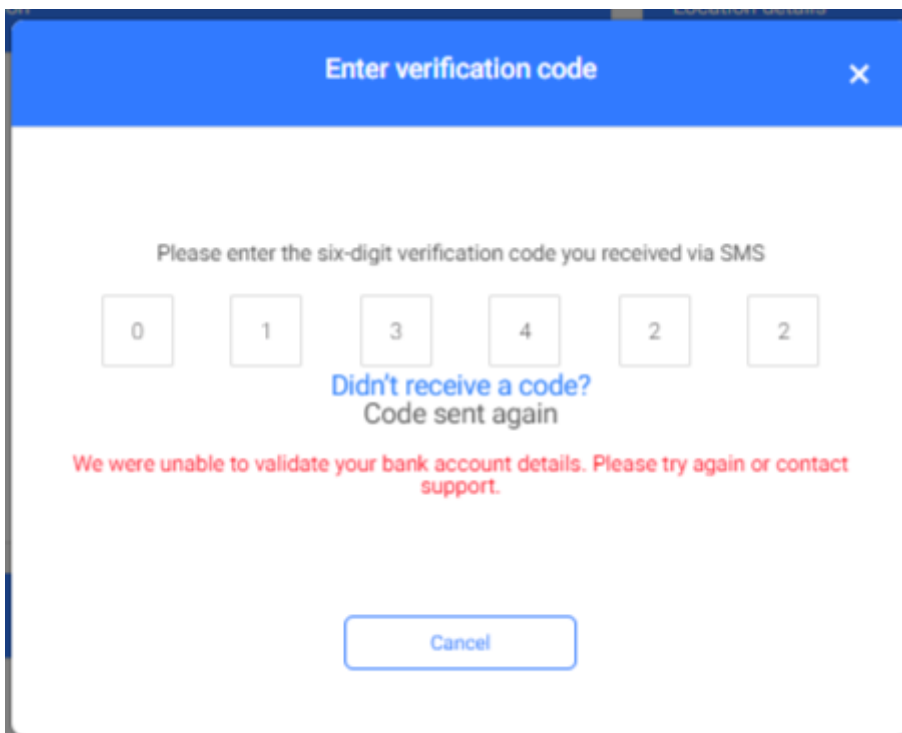

[Cancel](#)

Your bank account has been verified and added to the system. Add a label for this account?

Next

If the details can't be validated, you'll see the below error message. If this happens, please get in touch with the team on 0330 460 4672 or by emailing us at help@verofy.support . It's really useful if you are able to provide a proof of bank document with the details you're trying to update, to help us understand the reason the validation may not have been successful.

The screenshot shows a mobile app interface for entering a verification code. At the top is a blue header with the text "Enter verification code" and a close button (X). Below the header, the text "Please enter the six-digit verification code you received via SMS" is displayed. There are six input boxes for the code, containing the digits 0, 1, 3, 4, 2, and 2. Below the input boxes, there is a link "Didn't receive a code?" in blue, followed by the text "Code sent again" in black. A red error message states: "We were unable to validate your bank account details. Please try again or contact support." At the bottom, there is a "Cancel" button.

Once your new bank details have successfully validated, you'll see a pop up asking you to select which bank account you want to receive settlements to. Select **Use this account** on the account you wish to use.

Select bank accounts

Please note, this bank account will receive your settlement payments. To change your Direct Debit bank account, please contact help@verofy.support
